*** Requires a dedicated power supply with a 20 amp service

Dimensions of shredder and stand bag holder: 38"H x 26-1/2"W x 45"L

Durable shredder stands are equipped with three shelves for storage and a removable plastic bag rack for easy maintenance. Clear, vinyl shredder bags provide clean, efficient disposal of shredded materials.

The powerful, heavy duty chain drive transfers maximum power from the motor to the cutters. The AMS-150 is also equipped with an adjustable chain take-up to provide extended chain life.

The precision-ground, steel cutters are selfsharpening and will shred large and small paper clips, staples, and Acco fasteners as easily as paper. The self-adjusting cutter head eliminates the need for manual adjustments.
